

Hearing Aids

Policy

AllWays Health Partners will reimburse hearing aids for AllWays Health Partners members who have been clinically diagnosed and determined to be hearing-impaired. Hearing aids must be dispensed by a licensed audiologist and/or board-certified hearing instrument specialists (BC-HIS) as defined in M.G.L. c.112, §196. This policy is intended for guidance and does not guarantee reimbursement.

Policy Limitations

This policy applies to all AllWays Health Partners members who meet medical necessity for the use of approved hearing aids as set forth in this policy. This policy is not intended to be a statement of benefit coverage for all products offered under a plan type. Prior to providing a service provider should check the members eligibility and evidence of coverage for the members product/plan.

Authorization and Referral

Service	Requirement
Hearing Aid Devices	Prior authorization is required <ul style="list-style-type: none"> • Not covered for MassHealth Essential & Commonwealth Care Members

Modifiers

Modifiers must be appended where necessary, to denote the ear serviced.

Modifier	Descriptor	Comments
RT	Right side (used to identify procedures performed on the right side of the body)	
LT	Left side (used to identify procedures performed on the left side of the body)	

Member Cost-Sharing

The provider is responsible for verifying at each encounter and when applicable for each day of care when the patient is hospitalized, coverage, available benefits, and member out-of-pocket costs; copayments, coinsurance, and deductible required, if any.

Definitions

Hearing Aid: A wearable device designed for the purposes of aiding and/or compensating for hearing loss, which can be inserted directly into the ear or worn in conjunction with an ear mold, air conduction receiver, or bone oscillator.

Audiologist: Audiologists work with peripheral and central audiological systems and vestibular dysfunctions. Audiologists screen, identify, assess and interpret, diagnose, rehabilitate and work to prevent communication disorders.

Hearing Instrument Specialist: Hearing Instrument Specialists are individuals who engage in the practice of dispensing or fitting hearing aids. The practice of fitting and dispensing hearing aids means the measurement of human hearing solely for the purpose of making selections, adaptations or sales of hearing aids intended to compensate for impaired hearing. Individuals who have attained the Board-Certified Designation are distinguished by the credentials "BC-HIS" following their names.

Hearing Assistive Devices:

Hearing Assistive Devices expand the functionality of hearing aids by separating the sounds a person wants to hear from background noise. A hearing assistive device consists of a microphone to collect sound, a transmitter to send the signal across a distance, a receiver to intercept the signal, and any one of several different listening attachments to send the sound from the receiver to the user's ear or hearing aid.

Ear Molds: An **ear mold** is a device worn inserted into the ear for sound conduction or ear protection. Ear molds are anatomically shaped and can be produced in different sizes for general use or specially cast from particular ear forms. As a conductor, it improves sound transmission to eardrums.

*Original documentation
Document restructure*

This document is designed for informational purposes only. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization/notification and utilization management guidelines when applicable, adherence to plan policies and procedures, claims editing logic, and provider contractual agreement. In the event of a conflict between this payment guideline and the provider's agreement, the terms and conditions of the provider's agreement shall prevail. AllWays Health Partners utilizes McKesson's claims editing software, ClaimCheck, a clinically oriented, automated program that identifies the "appropriate set" of procedures eligible for provider reimbursement by analyzing the current and historical procedure codes billed on a single date of service and/or multiple dates of service, and audits across dates of service to identify the unbundling of pre and post-operative care.

AllWays Health Partners includes AllWays Health Partners, Inc. and AllWays Health Partners Insurance Company
