Telemedicine

**Policy**
AllWays Health Partners reimburses contracted providers for covered, medically necessary telemedicine services.

In line with Chapter 224 of the Acts of 2012, AllWays Health Partners defines telemedicine as the use of interactive audio, video, or other electronic media for the purpose of diagnosis, consultation, or treatment. Telemedicine does not include the use of audio-only telephone, fax machine, or email.

AllWays Health Partners providers must deliver telemedicine services via a secure and private data connection. All transactions and data communication must be in compliance with the Health Insurance Portability and Accountability Act (HIPAA). For more information on HIPAA and electronic protected health information (E PHI) compliance, please see: [http://www.hhs.gov/ocr/privacy/hipaa/understanding/srsummary.html](http://www.hhs.gov/ocr/privacy/hipaa/understanding/srsummary.html).

**Providers offering telemedicine must meet all licensure and regulatory requirements set forth by the state in which the member is physically located at the time of service.**

**Asynchronous telecommunication**
Medical information is stored and forwarded to be reviewed, at a later time, by a physician or health care practitioner at a distant site. The medical information is reviewed without the patient being present. Asynchronous telecommunication is also referred to as store-and-forward telehealth or non-interactive telecommunication.

**Interactive audio and video telecommunication**
Medical information is communicated in real-time with the use of interactive audio and video communications equipment. The real-time communication is between the patient and a distant physician or health care specialist who is performing the service reported. The patient must be present and participating throughout the communication.

**Reimbursement**
Providers are reimbursed according to the plan’s network provider reimbursement or contracted rates. Claims are subject to payment edits that are updated at regular intervals.

Covered services are defined by the member’s benefit plan. The manner in which covered services are reimbursed is determined by the AllWays Health Partners Payment Policy and by the provider’s agreement with AllWays Health Partners. Member liability amounts may include but are not limited to: copayments; deductible(s); and/or co-insurance; and will be applied dependent upon the member’s benefit plan.

Various services and procedures require referral and/or prior authorization. Referral and prior authorization requirements can be located [here](#).
Please reference procedure codes from the current CPT, HCPCS Level II, and ICD-10-CM manuals, as recommended by the American Medical Association (AMA), the Centers for Medicare & Medicaid Services (CMS), and the American Hospital Association. CMS and the AMA revise HIPAA medical codes on a pre-determined basis, including changes to CPT, HCPCS, and ICD-10 codes and definitions.

Please refer to the CMS or CPT guidelines for requisite modifier usage when reporting services. The absence or presence of a modifier may result in differential claim payment or denial.

AllWays Health Partners reviews claims to determine eligibility for payment. Services considered incidental, mutually exclusive, integral to the primary service rendered, or part of a global allowance, are not eligible for separate reimbursement. Please refer to Coding Provider Payment Guidelines for more information.

All claims are subject to audit services and medical records may be requested from the provider.

AllWays Health Partners reimbursement is based on line of business. Unless otherwise specified within the medical policies, please follow the guidelines based on membership type:

**Mass Health or My Care Family members:**
Access to Behavioral Health Services through use of Telehealth options are reimbursable. Benefits are administered by the AllWays Health Partners’ behavioral health vendor, Optum.

**Commercial members:**
Entire Policy Applies

**Provider Payment Guidelines and Documentation**

All claims are subject to audit services and medical records may be requested from the provider.

**Modifiers**

Practitioners must use Modifier GT (Via interactive audio and video telecommunications systems) or Modifier 95 (Synchronous Telemedicine Service Rendered Via a Realtime Interactive Audio and Video Telecommunications System) to differentiate a telemedicine encounter from an in-person encounter with the patient. When reporting Modifier GT or Modifier 95, the practitioner is attesting that services were rendered to a patient via an interactive audio and visual telecommunications system.

**Place of Service**

Utilize Place of Service 02 (“The location where Health Services and Health related services are provided or received, through a telecommunication system”) on the claim to indicate that the service was delivered via telemedicine.

**Reimbursement**

Reimbursement for telemedicine services is calculated using a reduced Practice Expense (PE) Relative Value Unit (RVU).

This document is designed for informational purposes only. Claims payment is subject to member eligibility and benefits on the date of service, coordination of benefits, referral/authorization/notification and utilization management guidelines when applicable, adherence to plan policies and procedures, claims editing logic, and provider contractual agreement. In the event of a conflict between this payment guideline and the provider’s agreement, the terms and conditions of the provider’s agreement shall prevail. Payment policies are intended to assist providers in obtaining AllWays Health Partners’ payment information. Payment policy determines the rationale by which a submitted claim for service is processed and paid. Payment policy formulation takes into consideration a variety of factors including: the terms of the participating providers’ contract(s); scope of benefits included in a given member’s benefit plan; clinical rationale, industry-standard procedure code edits, and industry-standard coding conventions.
