Overview
The purpose of this document is to describe the guidelines AllWays Health Partners utilizes to determine medical necessity for UVB Home Phototherapy Units for Skin Disease.

Coverage Guidelines
AllWays Health Partners may authorize coverage of a UVB home phototherapy unit for skin disease if ALL of the following criteria are met:

1. The member has a diagnosis of moderate-to-severe psoriasis with a history of frequent flares with treatment documented for at least 6 months.
2. The member has failed conventional treatment (oral or topical medications).
3. The UVB home phototherapy treatment is expected to be long-term; necessary for at least 12 months.
4. The member has been trained and competent to use the UVB phototherapy unit.
5. The UVB home phototherapy device is the smallest size appropriate for the treatment area (e.g., hand wand for hand).
6. The unit is approved for home use by the Food and Drug Administration.

Documentation Requirements
AllWays Health Partners requires a prescription by the member's treating physician for both the UVB Home phototherapy unit as well as the specific UVB treatment protocol. Documentation must also include a detailed description illustrating the following:

1. A description of the severity of the member's psoriasis.
2. A positive response to the UVB phototherapy treatment of psoriasis as demonstrated by a 50% improvement as measured by total body surface area (TBSA).
3. A plan describing regularly scheduled follow-up appointments with the physician.

Exclusions
1. Tanning beds.
2. Ultraviolet A (UVA) phototherapy in the home setting.
3. Home UVB therapy for any medical condition other than psoriasis.
5. Modifications made to the home to suit member need.

Definitions
Phototherapy: The exposure to nonionizing radiation for therapeutic benefit. It may involve exposure to ultraviolet A, wavelength 320-400 nanometers (UVA), ultraviolet B, wavelength 290-300 nanometers
(UVB), narrow band UVB, wavelength 311-313 nanometers (NB UVB), or various combinations of UVA and UVB radiation.
