

Drug Recall

DATE OF RECALL: January 1, 2022

DRUG NAME: Betamethasone Dipropionate Lotion USP, 0.05% (Augmented), 30 mL bottle, (29 g)

RECALLING FIRM: Teligent Pharma, Inc.

REASON FOR RECALL: This recall was issued due to failed stability specifications. The lot did not meet specification for the Active Pharmaceutical Ingredient (API) particle test, which was determined through routine stability testing.
