Overview

Lupkynis is indicated in combination with a background immunosuppressive therapy regimen for the treatment of adult patients with active lupus nephritis.

Coverage Guidelines

Authorization may be reviewed for members new to AllWays Health Partners who are currently receiving treatment with Lupkynis excluding when the product is obtained as samples or via manufacturer’s patient assistance programs.

OR

Authorization may be granted for members when ALL the following criteria are met, and documentation is provided:

1. The member has a diagnosis of active lupus nephritis
2. The member is ≥ 18 years of age
3. The member is receiving concurrent immunosuppressive therapy or contraindication to immunosuppressive therapy, excluding cyclophosphamide and biologics
4. Appropriate dosing.

Continuation of Therapy

Reauthorization may be granted for continued treatment of lupus nephritis and the patient is experiencing an improvement in their condition and the benefits of continued treatment outweigh risk of worsening nephrotoxicity.

Limitations

1. Initial approvals and reauthorizations will be valid for 12 months
2. The following quantity limits apply:

Lupkynis 7.9mg	180 capsules per 30 days
