Overview

Orilissa (elagolix) is a gonadotropin-releasing hormone (GnRH) receptor antagonist indicated for the management of moderate to severe pain associated with endometriosis.

Oriahnn (elagolix, estradiol, and norethindrone acetate capsules; elagolix capsules) is a combination of elagolix, a gonadotropin-releasing hormone (GnRH) receptor antagonist, estradiol, an estrogen, and norethindrone acetate, a progestin, indicated for the management of heavy menstrual bleeding associated with uterine leiomyomas (fibroids) in premenopausal women.

Coverage Guidelines

Authorization may be granted for members when all the following criteria are met, and documentation is provided:

Orilissa

1. The member has OB/BYN documented diagnosis of endometriosis with moderate to severe pain
2. The member is ≥ 18 years of age
3. Member has had an insufficient response or intolerance to generic alternatives in at least two of the following therapeutic drug classes:
 - o Nonsteroidal anti-inflammatory drugs (NSAIDs)
 - o Hormonal contraceptives
 - o Oral or depot medroxyprogesterone
4. The member has had an inadequate response, adverse reaction, or contraindication to Lupron

Oriahnn

1. The member is premenopausal
2. The member has a diagnosis of heavy menstrual bleeding associated with uterine leiomyomas (fibroids)
3. The member is ≥ 18 years of age
4. The member has had inadequate response or intolerance to ALL of the following:
 - o A hormonal contraceptive method (e.g. combined estrogen progestin contraceptive, levonorgestrel intrauterine devices, or progestin-only contraceptive)
 - o Generic tranexamic acid tablet

Limitations

- Initial approvals and reauthorizations will be granted for the following:

Medication	Diagnosis	Duration of approval
Orilissa 150mg	Endometriosis without dyspareunia	24 months
Orilissa 200mg	Endometriosis with dyspareunia	6 months
Oriahnn 300mg-1-0.5 & 300mg	Heavy menstrual bleeding associated with uterine leiomyomas (fibroids) in premenopausal women	24 months

- Reauthorizations will not be granted per manufacture recommended treatment guidelines
