Overview

Fotivda is indicated for treatment of relapsed or refractory advanced renal cell carcinoma in adults following ≥ 2 prior systemic therapies.

Coverage Guidelines

Authorization may be reviewed on a case by case basis for members new to AllWays Health Partners who are currently receiving treatment with Fotivda excluding when the product is obtained as samples or via manufacturer's patient assistance programs.

OR

Authorization may be granted for members when ALL the following criteria are met, and documentation is provided:

Advanced renal cell carcinoma

Prescriber provides documentation of ALL of the following:

1. Appropriate diagnosis
2. Prescriber is an oncologist
3. Appropriate dosing
4. Tumor is clear cell histology
5. Provider documentation of inadequate response or adverse reaction to **TWO** or contraindication to **ALL** systemic therapies (nivolumab monotherapy or in combination with ipilimumab, cabozantinib; axitinib monotherapy or in combination with pembrolizumab; cabozantinib monotherapy; lenvatinib in combination with pembrolizumab or everolimus; pazopanib; sunitinib)

6. Quantity requested is ≤ 1 capsule/day

Continuation of Therapy

Reauthorization will be granted when physician provides attestation of positive response to therapy.

Limitations

1. Initial approvals and reauthorizations will be granted for 12 months
2. The following quantity limits apply:

Fotivda capsules	30 capsules per 30 days
------------------	-------------------------

Appendix

Appendix A: Exceeding Quantity Limitations

Requests exceeding the quantity limit should be evaluated on a case-by-case basis. If there is compelling rationale for exceeding the quantity limit, please forward to clinical review for case-by-case evaluation (e.g., stability, past approvals at a dose exceeding the quantity limit, specific clinical rationale for dose is documented).

In addition to criteria in the procedure table above, requests exceeding the quantity limit must have **ALL** of the following:

1. Dose is appropriate
2. Dose is consolidated
3. Appropriate clinical rationale for exceeding the quantity limit
