Overview

Prescriptions that meet the initial step therapy requirements will adjudicate automatically at the point of sale. If the prescription does not meet the initial step therapy requirements, the prescription will deny with a message indicating that prior authorization (PA) is required. Refer to the criteria below and submit a PA request for the members who do not meet the initial step therapy requirements at the point of sale.

Initial Step-Therapy Requirements:

First-Line: Medications listed on first-line are covered without prior-authorization.

Second-Line: Second-line medications will pay if the member has filled at least two different first-line medications or a second-line medication within the past 180 days.

Coverage Guidelines

If a member does not meet the initial step therapy requirements, then approval of a second-line medication will be granted if the member has had a documented inadequate response, side effect, or allergy to at least two different 1st-line generic ophthalmic steroids or a second-line medication.

FIRST-LINE	SECOND-LINE
prednisolone ophthalmic dexamethasone ophthalmic fluorometholone ophthalmic	Durezol® ophthalmic emulsion Lotemax SM 0.38% ophthalmic gel Lotemax 0.5% ophthalmic gel Lotemax 0.5% ophthalmic ointment Lotemax 0.5% ophthalmic suspension

Limitations

- Approvals will be granted for 12 months.

- The following quantity limits apply:

Durezol® emulsion 0.05% ophthalmic	5mL per 25 days
------------------------------------	-----------------
