Overview
Osmolex ER is a noncompetitive NMDA receptor antagonist used for the treatment of Parkinson’s disease and drug induced extrapyramidal symptoms.

Coverage Guidelines
Authorization may be granted for members who are currently receiving treatment with Osmolex ER excluding when the product is obtained as samples or via manufacturer’s patient assistance programs. OR
Authorization may be granted for members when all the following criteria are met, and documentation is provided:
1. The member has a diagnosis of Parkinson’s disease or the treatment of drug induced extrapyramidal symptoms
2. The member is ≥ 18 years of age
3. The member has had an inadequate response, adverse reaction, or contraindication to immediate release amantadine

Continuation of Therapy
Reauthorization requires physician documentation of improvement of member’s condition.

Limitations
1. Initial approvals and reauthorizations will be approved for 24 months.
2. The following quantity limits apply:
   - Osmolex ER therapy pack 1-time fill
   - Osmolex ER 129mg, 193mg, and 258mg 30 tablets per 30 days
