(D) is Deductible, must be met first, then copayment or coinsurance may apply.

Cost-sharing for medical, behavioral health, pharmacy, and dental applies to the out-of-pocket maximum (OOPM).

Note: Plans are ordered based on relativity to the first plan in each section.

*Additional HSA plans without the Enhanced FlexRx benefit are available through the broker portal.*
Comprehensive benefits that are simple to understand and easy to use

Care Complement
Care Complement" options remove cost barriers to various care options. The following in-network benefits are at $0 cost sharing:
- Cardiac rehabilitation therapy

- The first 6 physical/occupational therapy and chiropractic visits
- The first 6 acupuncture visits (benefit limit of 20 visits)

Embedded Deductible and/or Out-of-Pocket Maximum
All members are responsible for the individual deductible per benefit period. The family deductible can be satisfied by combining the deductibles paid by covered family members. With family coverage, the family out-of-pocket maximum is satisfied by combining the deductibles, coinsurance, and copayment amounts paid by covered family members. A covered family member will not exceed the individual out-of-pocket maximum amount.

Aggregate Deductible
With family coverage, the individual deductible amount does not apply. The entire family deductible amount must be met before benefits are payable for anyone in the family.
