

Authorization Process for Off Label Medical Specialty Medication Requests

1. Requests for Medical Specialty Meds (under medical benefit - on or off label) on Prior Authorization (PA):

- These requests must be submitted by the provider to Novologix, who will then review.
 - If denied, can be submitted for Appeal to AllWays Health Partners.
- If auth request is submitted to AllWays Health Partners, the auth will be closed and the provider will be notified to redirect to Novologix.

2. Requests for Medical Specialty Meds (under medical benefit – on or off label) Not on PA:

- Requests submitted by provider for off label use of medication not on PA, will be **CLOSED** with attribute “**No PA required**”.

3. Requests for combination* Therapy Medical Specialty Meds (under medical benefit – on or off label): ex.: one medication is on PA with Novologix and another is not:

- The medication(s) on PA with Novologix must be submitted by the provider to Novologix, who will then review.
- If auth request (for specialty med. reviewed by Novologix) is submitted to AllWays Health Partners, the auth will be **closed** and provider notified to redirect to Novologix.
- The medication(s) not on PA, submitted by the provider to AllWays Health Partners for review will be **CLOSED** with attribute “no PA required”.
- The medication(s) on PA with AllWays Health Partners will be reviewed.

*Requests for medical specialty drugs are not reviewed as combination therapies/treatment, they are reviewed as individual products.

Auth Closure Attributes:

- **AC – No Prior Authorization Required**
- **AC – PA for Drug Required by CVS/Novologix**

*****Please note, this does *not* include the Rx benefit auth process via (retail pharmacy)– provider should follow business as usual process for Rx.**
