Our Pharmacy Benefit

We partner with CVS Caremark® to manage pharmacy benefits for our members.

AllWays Health Partners and CVS Caremark offer online tools to help you find pharmacies, estimate your costs, search for medications, and more.

Filling prescriptions

You may fill your prescription medications at any pharmacy in our national network, which comprises tens of thousands of pharmacies including independent pharmacies and major chain pharmacies such as CVS Pharmacy, Walgreens®, Rite Aid®, Stop & Shop Pharmacy®, Walmart Pharmacy®, and more.

Covered medications

Use the AllWays Health Partners drug lookup tool online to check if a medication is covered.

Our Pharmacy Formulary

Our pharmacy formulary is the complete list of prescription medications covered under your pharmacy benefit. It was developed by doctors, pharmacists, and other experts who review clinical drug studies and determine the most reasonably priced medications that have been approved as safe and effective by the Food and Drug Administration (FDA).

You can search our formulary online. If you have questions about non-covered medications, call Customer Service.

6-Tier Placement

The AllWays Health Partners pharmacy benefit places all covered drugs into tiers.

TIER 1 — includes lower cost generic medications. Generic drugs contain the same active ingredients as their brand name counterparts.

TIER 2 — includes other generics and may include some brand name medications.

TIER 3 — includes high costing generic and preferred brand name medications.

TIER 4 — includes higher cost generics and non-preferred brand name medications.

TIER 5 — includes generic specialty and preferred specialty medications.

TIER 6 — includes non-preferred specialty medications.

Each tier has a level of cost sharing. **Cost sharing** is the amount you have to pay for your medical services, medications, or equipment. Cost sharing may include deductibles, coinsurance, and copayments. Premiums and costs for non-network providers or non-covered services are not part of cost sharing. Members can log in to allwaysmember.org to view plan documents and learn about cost-sharing responsibilities.

Doctors and pharmacists have reviewed all medications in our formulary for safety, quality, and effectiveness. You can determine what tier your drug is in by using the drug lookup tool available online.

How You Can Help Reduce Your Costs

Maintenance 90-day Supply

If you take certain maintenance medications, the AllWays Health Partners Maintenance 90 program requires you to get a 90-day supply to ensure you always have your most important medications on hand. Your cost sharing may also be lower when you fill a 90-day prescription. Maintenance medications treat chronic conditions such as high blood pressure and diabetes. Short-term medications do (for example, pain medication and antibiotics) not have this requirement.

To see if a medication is considered a maintenance medication, use the drug lookup tool.

How can I get a 90-day supply of my maintenance medication?

Access90

Fill your 90-day prescriptions at your local participating pharmacy with our Access90 program. Simply bring a 90-day prescription for your maintenance medication to a participating retail pharmacy.

Mail order

Sign up for a 90-day supply through the mail on allwaysmember.org.

Over-the-counter drug benefit

Some over-the-counter medications, including cough syrup, allergy medication, and nicotine replacements, are covered by your AllWays Health Partners pharmacy benefit with a valid prescription from your doctor.

Cost sharing may vary depending on the drug prescribed. Members can check allwaysmember.org to see which over-the-counter medications are covered along with cost-sharing information.

Therapeutic Class

A “therapeutic class” is a group of medications used to treat the same medical condition. For example, medications that treat high cholesterol are all in the same therapeutic class.

When a brand name medication does not have a covered generic equivalent, it may have covered generic alternatives in the same therapeutic class. Generic alternatives contain different active ingredients but treat the same condition.

The Value of Generic Medications

Mandatory generic substitution*

Generic medications have the same active ingredients, quality, and results as brand name drugs, and they are approved by the U.S. Food and Drug Administration (FDA). Inactive ingredients like colorings and fillers, which also must meet FDA guidelines, are usually the only differences between generic and brand name medications. For this reason, our mandatory generic substitution requires you to try a generic medication before the brand name medication is considered for coverage.

Prior authorization is required for an exception to our mandatory generic medication pharmacy benefit.

Our Pharmacy Management Program

AllWays Health Partners has programs in place to help our members use medications safely and effectively. These programs are managed by practicing doctors and pharmacists.

Prior authorization

Prior authorization (a clinical review of medical necessity) is sometimes required before a specific medication may be dispensed. We review and use criteria developed and approved by the AllWays Health Partners Pharmacy & Therapeutics Committee.

The clinical review process may take up to 48 hours after we have received complete information. We will notify both you and your doctor as soon as we make a decision.

You can find out if your medication requires prior authorization by searching our covered drug list online.

Quantity limit

AllWays Health Partners may limit the number of units (tablet, capsule, or liquid) for a specific medication you may receive in a given time period to ensure safe and appropriate use. These limits are based on recommended dosing schedules and the availability of several strengths of the medication. Quantity limits automatically apply at the time the prescriptions are purchased. AllWays Health Partners requires prior authorization for exceptions to our quantity limits.

*Exceptions may apply.

Step therapy program

The step therapy program helps provide you with the most appropriate and affordable drug treatment plan. Before filling a prescription for certain costly second-step medications, we require that you first try an effective but less expensive first-step medication.

If you have already tried a first-step medication and your doctor prescribes a second-step treatment, we automatically approve coverage for that alternative in most cases.

If your prescription records do not indicate the use of a first-step medication, or if you are a newly enrolled member with no prescription history, your doctor may contact AllWays Health Partners to request an exception to the step therapy program

Specialty pharmacy program

We partner with a select group of specialty pharmacies to provide medications for complex medical conditions. Search the covered drug list online to see what medications are included in the specialty pharmacy program.

Specialty pharmacies have expertise in the delivery of the medications they provide and offer services not available at a traditional retail pharmacy including:

- All necessary medication and supplies for administration (at no additional charge)
- Convenient delivery options to your home or office with overnight or same-day delivery available when medically necessary
- 24/7 access to nurses, pharmacists, and care coordinators specializing in the treatment of your condition
- Refill reminders by phone to help you stay on your medication
- Educational resources regarding medication use, side effects, and injection administration

If your prescription is included in the specialty pharmacy program, please contact your doctor, who can submit a new prescription referral form to the correct specialty pharmacy. For additional assistance, or if you have any questions about our specialty pharmacy program, please call Customer Service.

Can I go only to CVS pharmacies to fill prescriptions?

The CVS Caremark network comprises tens of thousands of pharmacies nationwide including independent pharmacies and major chain pharmacies such as CVS Pharmacy, Walgreens, Rite Aid, Stop & Shop Pharmacy, Walmart Pharmacy, and more.

My doctor has prescribed a medication that is not listed in the AllWays Health Partners covered drug list. What should my doctor do to request an exception?

When a covered alternative is not medically appropriate for you, your doctor may request coverage of a non-covered medication. CVS Caremark will review the request and determine if the request meets medical necessity.

How does AllWays Health Partners decide what medications to cover?

Our Pharmacy & Therapeutics (P&T) Committee is responsible for reviewing medications included in our covered drug list. The committee of doctors and pharmacists reviews medications for clinical appropriateness, safety, and side effects.

How soon do new medications approved by the FDA become available to AllWays Health Partners members?

Newly approved medications are reviewed by the AllWays Health Partners P&T Committee regularly. During the period when a new medication is being reviewed, it is not covered by your pharmacy benefit; however, as with other non-covered medications, your doctor can request an exception when there is no other medically appropriate alternative available to you.

How do I find out which tier my medication is in?

Search our covered drug list online to see what tier your medications are in.

How do I refill a prescription while on vacation?

If you are traveling in the U.S., ask your doctor for a prescription to take with you. Fill it at any participating pharmacy in our nationwide network.

Members can use the find-a-doctor tool on allwaysmember.org to search for a participating pharmacy.

Is my pharmacy benefit available across the U.S.?

Your pharmacy benefit is available in all 50 states. You can fill your prescriptions at any participating pharmacy in our nationwide network.

AllWays Health Partners members may choose from a variety of provider sites including hospital-based practices, medical groups, private practices, and community health centers.

Prior authorization is required for certain services. However, you do not need prior authorization for emergency or urgent-care services. While members are required to obtain a referral to see a specialty care provider, referrals are not needed for:

- Outpatient and diversionary behavioral health services
- Emergency services
- Family planning services
- Physical, occupational, and speech therapy
- Routine eye exams

Each AllWays Health Partners member must choose a primary care provider. Our contracted providers are listed in our provider directory. The AllWays Health Partners provider directory is online, please visit allwayshealthpartners.org. In addition to general contact information, the online directory tells you whether or not a provider is accepting new patients.
